ABOUT US

Skyhomez global LLC is a UAE based, licensed General Trading company operating through its specialized SHG Trading Division, Headquartered in Dubai, the company serves as a strategic bridge between world-class industrial manufactures and procurement professionals across the Middle East, Asia, Europe and beyond.

Our commercial registration and General trading license underpin a transparent, robust and fully compliant procurement operations.

SHG Trading was established to address a critical gap in the market: the need for technical competent, commercially agile trading partner capable of sourcing, qualifying, and delivering precision-engineered pressure vessels and surge protection systems on time and within specification. We combine engineering knowledge with global sourcing capabilities to provide our clients with the best-fit solutions at competitive price points

► UAE-Based Global Reach

Strategic Dubai hub enabling fast access to GCC, Asian and European Markets

► Licensed and Compliant

Fully registered General Trading Company with all requisite UAE commercial credentials.

► Engineering Expertise

Technical Procurement team with deep knowledge of pressure vessel standards and hydraulic system.

► World-wide Sourcing

Procurement network spanning 12+ manufacturing countries across four continents

SKYHOMEZ GLOBAL
BE PART OF INNOVATIVE DESIGN

VISION

To be the most trusted and technically capable trading partner for pressure vessel and surge protection procurement in the Middle East and international markets – recognized for engineering integrity, commercial reliability and unparalleled after-sales service.

We envision a future where industrial buyers anywhere in the world can confidently rely on SHG Trading for their most demanding pressure management challenges

MISSION

To deliver world-class surge vessel and pressure management solutions that protect critical infrastructure, reduce lifecycle risk, and exceed client expectations at every stage of the project from specification through to commissioning and beyond.

We are committed to sourcing exclusively from globally recognized certified manufactures, ensuring that every product we supply meets or surpasses the technical and regulatory requirements of the project.

SKYHOMEZ GLOBAL
BE PART OF INNOVATIVE DESIGN

SHG Trading offers an extensive range of pressure vessels and surge protection equipment engineered to meet the demands of water infrastructure, industrial utilities, and process systems. Each product category is sourced from vetted international manufactures and supplied with full technical documentation, material certifications and compliance record.

OUR PRODUCT

01

SURGE VESSELS

Bladder-type and diaphragm surge tanks for pipeline water hammer protection.

02

HYDROPNEUMATIC PRESSURE VESSELS

For pressure stabilization in pumping and water distribution systems.

03

AIR RECEIVERS & BUFFER TANKS

Carbon steel and stainless-steel air receivers for compressed air and buffer applications.

04

EXPANSION & VACUUM TANKS

Thermal expansion vessels and vacuum tanks for closed-loop systems.

05

ASME PRESSURE VESSELS

Code-stamped ASME Section VIII vessels for high-integrity applications.

06

CUSTOM ENGINEERED VESSELS

Bespoke pressure vessels designed to project-specific technical requirements.

SURGE VESSEL APPLICATION

SHG Trading 's surge vessels and pressure management system serve the most demanding sectors of global industry. Our products protect critical infrastructure from the destructive forces of water hammer and pressure transients, ensuring uninterrupted, safe and efficient operations across a wide spectrum of applications.

 01 WATER TRANSMISSION Pipelines, pumping stations, and water treatment plants. 	 02 DESALINATION PLANTS High-pressure seawater intake and product water distribution systems. 	 03 IRRIGATION NETWORKS Large-scale agricultural and municipal irrigation distribution systems. 	 04 DISTRICT COOLING & HVAC Chilled water circuits, district cooling loops, and building HVAC systems. 
 05 FIRE FIGHTING SYSTEMS Pressure maintenance for fire suppression and sprinkler networks. 	 06 OIL, GAS & PETROCHEMICAL Process utilities, pipeline protection, and refinery pressure management. 	 07 POWER PLANTS Cooling water circuits and utility pressure systems in power generation facilities. 	 08 INDUSTRIAL UTILITIES General industrial process utilities requiring pressure vessel protection. 

Meet the Specification in Compliance with leading organisations across the UAE

ENGINEERING AND TECHNICAL SUPPORT

SHG Trading goes far beyond product supply. Our in-ouse engineering support capability ensures that every product receives the technical rigor it demands from intial product selection through to regulatory compliance and third-party inspection coordination. We work directly with consultants, contractors, and end-user engineering teams to stremline the procurement and approval process.

01 Product Selection

Spocification review and best-fit product recommendation based on project hydraulic parameters.

02 Hydraulic Design Review

Coordination with surge analysis engineers to validate vessel sizing and system integration.

03 Technical Documentation

Full submittal packages including GA drawings, datasheet, material certificates, and ITP.

04 Factory Testing

FAT documentation, hydrostatic test certificates, and full quality dossier preparation.

05 Third Party Inspection

Coordination with approved TPI agencies (Bureau Veritas, Lloyd's, SGS, Intertek, etc.).

06 Regulatory Compliance

DEWA, ADDC, and SEWA compliance support and method statement preparation.

WHY CHOOSE US

In a competitive global marketplace, SHG Trading distinguishes itself not merely by price, but by the comprehensive value it delivers at every stage of project lifecycle. Our clients ranging from major EPC contractors and government utilities to industrial plant operators choose us because we deliver on our promises every time.

GLOBAL PROCUREMENT NETWORK

Access to 12+ manufacturing countries with multi-source redundancy for every product category. We find the right manufacturer for every specification and budget.

COMPETITIVE PRICING

Direct manufacturer relationships and high volume sourcing capabilities translate into best market pricing for our clients, without compromising on quality or documentation.

FAST DELIVERY

Established logistics partnerships and pre-qualified manufacturing slots enable accelerated delivery schedules to meet even the most demanding project timelines.

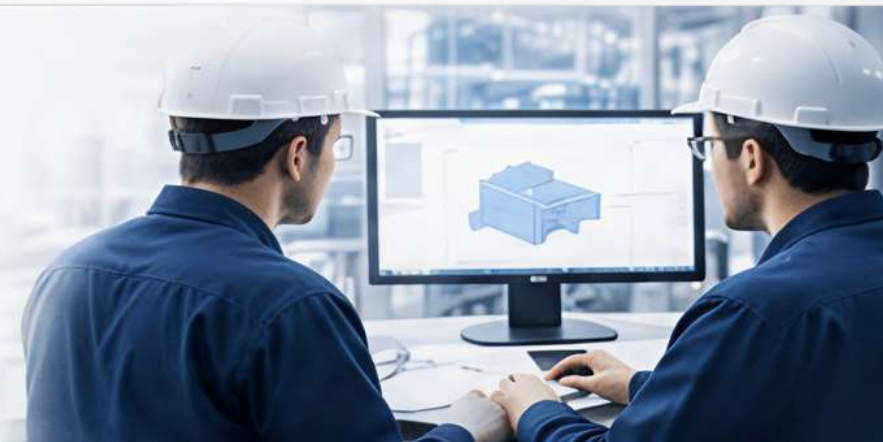

QUALITY ASSURED PRODUCTS

All products are supplied with full third-party inspection documentation, material test reports, and internationally recognized quality certifications.

TECHNICAL ENGINEERING SUPPORT

A dedicated engineering team provides product selection, specification review, and full documentation support throughout the project procurement process.

END-TO-END PROJECT SUPPORT

From RFQ to final commissioning, our experienced commercial and technical team manages every step, providing a single accountable point of contact for the client.

SKYHOMEZ GLOBAL LLC

SHG TRADING DIVISION – DUBAI, UAE

We welcome inquiries from procurement managers, project engineers, EPC contractors, and industrial buyers worldwide. Whether you have a specific product requirement, a project specification to discuss, or simply wish to register as a qualified buyer, our team is ready to respond promptly and professionally.

REQUEST A QUOTE

To receive a competitive commercial offer, please provide the following information when contacting us:

Product type and quantity required

Technical specification or project data sheet

Required delivery location and incoterms

Target delivery date

Applicable codes and standards (e.g., ASME, EN, BS)

Our team will respond with a fully documented technical and commercial proposal within 48 hours of receiving your inquiry.
